

Pacgate AI — Prerequisites Checklist

For Pacgate Law (百宸律师事务所) to complete and return to Cubecloud Limited Company (智方云科技).

Contract signed 2026-06-16 · Phase 1 Active · Prepared by Cubecloud Limited Company

1. Hardware & Service T-Point Prerequisites

What must be in place before each phase begins. Joint tracking for Pacgate and Cubecloud.

1a. Hardware T-Point Prerequisites

- ☐ Client confirms SKU selections in writing Pacgate
- ☐ Site power / network / temperature / humidity / rack conditions meet Cubecloud written requirements Pacgate
- ☐ Cubecloud remote access channel opened Joint
- ☐ Deposit payment received (¥91,760) Pacgate

1b. Service T-Point Prerequisites

- ☐ Service deposit received (¥24,000) Pacgate
- ☐ Hardware acceptance completed (HWOS-P01) Joint
- ☐ Basic system environment ready (network / accounts / permissions) Cubecloud
- ☐ Client provides: scope description, playbook drafts, template samples, matter folder structure Pacgate

2. Accounts & Identity

Accounts, credentials, and identity items Pacgate must provide or confirm before Cubecloud can proceed with deployment and BYOK setup. Items marked with * are Cubecloud-recommended additions.

Item	Purpose	Owner	Status	Pacgate Response
Public Email Account	Team notifications, BYOK provider registration, Cloudflare admin, Docker Hub, GitHub recovery. Prefer Outlook — accessible from overseas and domestically in China.	Pacgate	AWAITING	
GitHub Account	BYOK OAuth verifications, git/PR store for future application codebase, CI/CD integration. Cubecloud can provide registration guidance.	Joint	AWAITING	
Valid Domain Name	Pacgate Law domain for Cloudflare Zero Trust network integration, SSL/TLS, WAF, and secure tunnel endpoints.	Pacgate	AWAITING	
Cloudflare Account *	Zero Trust Network Access, DNS management, WAF rules, tunnel endpoints for secure remote access to on-prem nodes.	Pacgate	RECOMMENDED	
Admin Contact List *	Named contacts for: hardware receipt, network admin, legal workflow owner, IT security. Minimum 2 contacts per role.	Pacgate	RECOMMENDED	

3. Networking & Infrastructure

Item	Purpose	Owner	Status	Pacgate Response
Tailscale VPS Networking	Secure node-to-node mesh VPN between Device A and Device B, plus Cubecloud remote support access. Tailscale coordination or equivalent WireGuard-based mesh.	Cubecloud	PLANNED	
Site Network Details	Internal IP ranges, firewall rules, proxy requirements, NAT/gateway config. Needed for hardware T-point site readiness check.	Pacgate	AWAITING	
Static IP or DDNS *	If Pacgate office lacks static public IP, a DDNS provider (or Cloudflare Tunnel) is needed for stable remote access endpoints.	Pacgate	RECOMMENDED	
Backup Target *	Local NAS, external drive, or cloud bucket for PostgreSQL dumps, model parameters, config backups, and matter data. Define retention policy.	Joint	RECOMMENDED	

4. Model Runtimes & Registries

Item	Purpose	Owner	Status	Pacgate Response
Ollama (Local)	Primary local LLM runtime. Three-tier model roster: Nemotron3:33b, Qwen3.6:27b, Qwen3.5:9b. Cubecloud pre-deploys as part of standard AI layer.	Cubecloud	DESIGNED	
LM Studio (Optional)	Alternative local model runner for experimentation, model comparison, and non-Ollama model formats. Useful for Pacgate-led model evaluation.	Cubecloud	OPTIONAL	
Docker.io Account	Container registry access for pulling Cubecloud service images, agent runtimes, and future CI/CD pipeline artifacts. Rate limits may apply without auth.	Joint	AWAITING	
GHCR Access *	GitHub Container Registry as secondary pull-through cache or private image store. Reduces Docker Hub rate-limit exposure.	Cubecloud	RECOMMENDED	

5. BYOK & API Credentials

Item	Purpose	Owner	Status	Pacgate Response
Anthropic API Key	Claude Sonnet 4.6 for System A (Claude for Legal). Cloud-side API dependency — acknowledged in clarification. Key stays in Pacgate-controlled env.	Pacgate	AWAITING	
OpenAI API Key	GPT-5.4 for fallback or comparison workflows. Optional if Anthropic + local Ollama cover primary needs.	Pacgate	OPTIONAL	
DeepSeek API Key	DeepSeek-V4 for China-hosted alternative inference. Lower latency for domestic legal scenarios.	Pacgate	OPTIONAL	
Qwen/DashScope API Key	Qwen3.6 / qwen3-max via Alibaba DashScope. Domestic cloud inference with strong Chinese legal text performance.	Pacgate	OPTIONAL	
MiniMax API Key	MiniMax-2.7 for additional domestic inference option. Evaluate relevance to legal workflows before provisioning.	Pacgate	OPTIONAL	

6. Legal Data, MCPs & Cloud IAM

Item	Purpose	Owner	Status	Pacgate Response
Domestic Legal Services MCPs	China-specific legal data sources: PKULaw (北大法宝), China Judgments Online (中国裁判文书网), local regulatory databases. Client decides which to adapt; Cubecloud integrates via MCP connectors.	Pacgate	AWAITING DECISION	
Current Cloud IAM / Credentials	Existing cloud provider accounts (Alibaba Cloud, AWS, Azure, etc.), IAM roles, and service credentials. Needed to assess integration surface and avoid privilege conflicts.	Pacgate	AWAITING	
Existing Legal Software Inventory *	List of current legal tools, document management systems, billing platforms, and research subscriptions. Identifies integration touchpoints and migration paths.	Pacgate	RECOMMENDED	
Initial Document Corpus *	Sample contracts, opinion letters, memos, and regulatory filings for RAG seeding and playbook drafting. Minimum 50–100 documents recommended for meaningful starter retrieval.	Pacgate	RECOMMENDED	
Practice Area Priority List *	Ranked list of practice areas to activate first (e.g., Data Compliance, M&A, IP, Antitrust). Drives playbook sequencing and model fine-tuning priority.	Pacgate	RECOMMENDED	

Pacgate AI · Phase 1 Prerequisites Checklist · Contract signed 2026-06-16

Prepared by Cubecloud Limited Company (智方云科技) for Pacgate Law (百宸律师事务所). Not a legal document.

Please complete the "Pacgate Response" column for each item and return to Cubecloud.
