Summary	Qty	Unit
Local AI workstation for document processing, knowledge retrieval and Agent application hosting	2	unit
External GPU dock to enhance local AI inference and multi-Agent workload	2	set
Memory and related configuration required for local AI runtime	2	set
Local AI baseline runtime, basic document processing, basic retrieval and runtime validation	2	set
Unified AI operating entry, basic task entry and foundation for subsequent Agent hosting	2	set
Local access, security, permission baseline configuration and basic usage notes	2	set
Legal adaptation, operator manual, initial workflow demo and attorney-review boundary setup	1	set
Multi-Agent orchestration, adversarial review, verification loop and deliverable-oriented workflow	1	set
Permission table, context graph, retrieval / RAG starter toolkit and usage handover	1	item

arty A's written confirmation of SKU selections; Milestone One 30% within 5 business days after the rele

e Cubeccloud LegalAgent Contract.

Local AI Layer, the Cubeccloud Agent OS Surface and baseline handover only.

enablement, and related handover services only.

, checked and priced in this Sheet falls outside the delivery or service scope of this round.

elopment, full knowledge-base engineering, and Phase 2 planning — if required — shall be confirmed by

heet shall take effect upon signature or sealing by both parties.

rty A requires Party B to issue a VAT invoice, the tax shall be borne separately by Party A; the specifi
ts shall be calculated separately based on the amount attributable to Contract 1 and Contract 2 respecti
n this contract amount and shall be confirmed per engagement or reimbursed on actual cost. If required,

ithin 5 business days after the Selection Sheet is mutually confirmed in writing, the reduced portion sh
d; (c) additions shall be effected by supplemental agreement or a subsequent version of the Selection Sh
